FOR IMMEDIATE RELEASE

TechWell Announces Agile Testing Days Coming to the United States

Jacksonville, FL, November 16, 2017 —TechWell Corporation, an industry leader in software conferences and training, and trendig technology services GmbH, the organizer of Europe's popular Agile Testing Days, today are announcing a strategic partnership to bring Agile Testing Days to the United States, which will be held June 25-27, 2018 at the DoubleTree by Hilton Hotel Boston North Shore.

The Agile Testing Days conferences are festivals of learning and sharing for the agile community. They provide a fun way to get deep insights and latest developments in testing and agile excellence as well as to provide a platform for networking.

The program consists of one day of tutorial workshops and two days of conference sessions. TechWell will partner with Agile Testing Days to ensure the conference continues the legacy of offering the best agile testing education with the first U.S. based event.

José Díaz, founder of trendig technology services commented, "After fifteen years of knowing, appreciating, and respecting each other, the partnership with TechWell and its team is the right step to bring the spirit of the Agile Testing Days to the USA. We both want to rock the market in Americas, the same way the Agile Testing Days already does in Europe".

"We are excited to partner with José Díaz and his company on such a content-rich and well-loved event, we hope to help make Agile Testing Days USA 2018 the best it can be." said Wayne Middleton, TechWell CEO.
