TechWell Announces Agile Dev, Better Software & DevOps West in Las Vegas

OVER ONE HUNDRED LEARNING AND NETWORKING SESSIONS TO BE HELD OVER SIX DAYS

Jacksonville, FL, February 15, 2016 — [Agile Dev, Better Software & DevOps West](#) will be held June 5–10, 2016, in Las Vegas, Nevada at the iconic Caesars Palace. The conference offers access to more than one hundred learning and networking sessions over six days, details of which are now available to view online.

“We are excited to announce the full 2016 Agile Dev, Better Software and DevOps West schedule. This year’s event offers speakers from companies including Spotify, Whole Foods, ThoughtWorks, Autodesk, DirectTV, Electronic Arts, Microsoft, Agile Institute, and others.”, said Stasi Richmond, Director of Marketing for TechWell.

At Agile Dev West, discover the latest in agile methods, technologies, tools, and leadership principles. Better Software West explores what is needed to build better software now; and, at DevOps West, learn from industry experts how your organization can apply DevOps concepts to improve deployment frequency and time to market, reduce lead time, and more successfully deliver stable new features.

This year’s keynotes presentation lineup will feature industry experts like Jez Humble on DevOps and the Culture of High-Performing Software Organizations and Linda Rising on The Power of an Agile Mindset—plus other internationally-known speakers.

Concurrent sessions offer attendees the flexibility to customize their learning experience by following a specific track or explore various track topics throughout the week. Session Tracks include, but are not limited to:

- Agile Leadership
- Agile Techniques
- DevOps
- Going Mobile
- Internet of Things (IoT)
- Projects & Teams
- Software Quality
- Test & QA

Finally, attendees can take part in the Agile Leadership Summit at Agile Dev West. Participants in the Agile Leadership Summit work with and learn from experienced agile leaders that have led lasting change and produced a thriving agile culture. Learn ways to challenge personal leadership growth and lead in your organizational challenges including communication interpretation, anti-fragile approaches, visual data information radiators, and more.
