FOR IMMEDIATE RELEASE

TechWell Releases the Full Mobile Dev + Test and IoT Dev + Test Conference Programs

Jacksonville, FL, January 28, 2016 —TechWell Corporation, an industry leader in software improvement conferences and training, has announced the full program for its Mobile Dev + Test and IoT Dev + Test conferences to be held April 17–22, 2016 at the Westin San Diego Hotel in San Diego, CA.

“We are excited to offer delegates two programs in one location. This two-in-one event will offer access to over sixty learning and networking sessions over six days,” said Stasi Richmond, Director of Marketing.

Delegates can build a customized week of learning with a variety of topics available through pre-conference training classes, keynote presentations, tutorials, and concurrent sessions.

This year’s keynote titles include, The First Wave of IoT—Blood in the Water, Mobile and IoT Wins! Now What?, 10,000 Years in Your Pocket: The Deep History of Your Mobile Device, and Balancing New Tools and Technologies vs.Risk.

Topics covered during tutorials and sessions will include:

- Wearable and Smart Technology
- Security Testing for Mobile
- Android and iOS Development
- Wearable UX
- Mobile App Design
- Enterprise IoT
- Embedded Systems Development
- Smart Home and Office Apps
- and More

Additionally, this year, delegates will have the option to attend a free, half-day bonus session on Friday which will show how to design apps for Android devices with Luke Wallace.

The Mobile Dev + Test and IoT Dev + Test conferences will also feature an Expo where delegates can network, watch live demonstrations from top industry solution providers, attend industry technical presentations, and more.
